Know Your Neighbor

by Karen Linton

Glenna McKay, a 21-year resident of Woodburn Estates and Golf, was celebrated recently to a 95th birthday party at the clubhouse. Hosted by her family, most of whom attended, it was held in the blue room. Also stopping by to say "Happy Birthday" were many people from her church and from the activities she has enjoyed here over the years, especially water aerobics that she partially attributed to her healthy longevity.

Glenna and her husband, who retired from Union Pacific Railroad after 30 years, were married 52 years prior to his passing. They lived in North Portland where they raised their four children

and Glenna was the manager of Loaves & Fishes for five years. After his retirement, they became snow birders, going south for the winters for over 20 years. They were hosts in southern Oregon and then at Desert Hot Springs. Glenna was the activity director there planning events and giving tours.

When they decided their snow birder days were over, they moved to Florence, Oregon, where they lived for 16 years. She loved the ocean and never got tired of it, fishing on a friend's boat and catching lots of salmon. When her husband's health deteriorated, they moved to WEG to be closer to their family which has now expanded to six grandchildren and 10 great-grandchildren.

Glenna says she has had a wonderful life and her demeanor and personality reflect that opinion!

Sound Wall Update

by Sharyn Cornet, HOA President

Many of you who signed the petition for ODOT to build a sound wall along the freeway in Woodburn Estates & Golf have asked for a progress report. Your HOA sent a letter to ODOT along with the petition with over 200 signatories asking for the wall to be built.

In addition, our liaison to the Woodburn City Council took the issue to them and they also sent a letter to ODOT supporting our request. A follow-up meeting with the City Administrator is in the near future to discuss other possible avenues.

ODOT will be taking feedback from the public until March so there is little likelihood that we will hear anything before April. However, we will keep you informed of any developments.

Artist of the Month

by Steve Veltman

Our Featured Artist for the month of January is Clare Bankston Predeek. The weird and wacky masks of Clare Bankston Predeek adorn the walls of the Living Room (lobby outside the Country Cottage restaurant) this month.

Clare was born and raised in Silverton, OR and there she wed Glenn Predeek, also a native Silvertonian. The couple have been married for 54 years and have raised two children.

She was employed as a secretary; and upon retirement began journaling which led to embellishing with paper arts. Clare joined a journaling group which meets at the Woodburn Art Center for Open Studio each Monday.

"I have come to love playing with these faces," she says. When asked to exhibit her work in the Living Room, Clare was humbled. "It's a silly little thing but I feel honored."

DREW'S DESK

by Drew Steig, General Manager

Hello everyone, due to the exhaustive nature of this meetings gm report, I will be limiting my discourse to that report.

I am pleased to report that we have made significant progress in identifying the scope of the maintenance issues and affecting some of the repairs. While we still have a long way to go, and we have brought in several professional inspectors to assist us in the process, so that when repairs begin, we have a clearer understanding of what our contractors will be doing.

- The electrical repairs in the pool house are nearing completion.
- The ice machine in the restaurant was obtained. GM authorization was used to allocate reserve funds in the amount of \$700 to the project to effect the acquisition of the ice machine, and it has been installed by our wonderful maintenance team at minimal cost to the facility

- As part of the installation, we looked at how to bring the plumbing up to code, specifically the air gaps, which are a backflow prevention measure in the sewer line and have designed an option that should solve the problem.

- While the full scope of the issues is subject to confidential contract negotiations at this time, I can with confidence say that progress is beginning to be made at an accelerated rate. I am hopeful that by February's board meeting that we will be able to present the full project scope to the membership as well as a definitive timeline. It is important that we take the time needed to do this right, with competent contractors, at the best available price to our association

The spa

Let's address the elephant in the room. I know that the spa returning to full service is an issue that is important to many of our membership. In fact, I don't think that I have received more inquiries about any other subject. I have received permission from our board president to address this issue in more detail.

When repair work was begun on the spa by our maintenance team, it was thought that the issues faced would be a minor repair. Unfortunately, that turned out not to be true. Due to a combination of age, improper, and incompletely performed maintenance in past years, and poor ventilation of the pool house we began to peel back layers of this particular onion finding new issues as we went. These issues included nontoxic mold, and severely deteriorated electrical wiring. The mold issue has been handled, and electrical repairs are nearing completion.

Additionally, we have found severely deteriorated HVAC systems, dry rot, and plumbing that is cracked and leaking. The leaking plumbing has caused erosion which has affected the foundation of the building. While our engineer who inspected the facility does not feel that the foundation erosion is an immediate danger, The erosion is continuing, and it is only a matter of time before permanent and irreversible damage occurs.

Part of the challenges we are facing with this is that not only does the foundation need to be shored up, but that in order to repair the pipes we need to identify the exact location of the breaks, and then excavate under the building in order to perform repairs. Finding a contractor to perform this repair is at the top of our priority list, however many contractors are booked out for weeks or months due to labor shortages and finding one that will provide not only timely repair, but also affordable repair is of the utmost importance. I will provide additional updates on the repairs via the bugle blast, and news and views as information becomes available.

At this time, I ask for continued patience from our members with this project, as the sheer immensity of this undertaking far exceeds our original understanding of the issues at hand.

Additional items

As it is important that the employees have good direction, education about their roles, expectations and safety rules that must be followed, I have dived deep into our policies and handbooks and I am working on a detailed operations handbook and revised employee handbook, designed to make sure that no matter the circumstances, we can restaff and move forward, should we lose any of the key personnel in our association. We are also revisiting employee benefit policies to find options that balance the needs of being both beneficial to the employees, and affordable to the association.

We are currently in contract negotiations with the Woodburn aquatic center, and I am hopeful that we will have a plan in place to use their facilities while ours are in repair. Most of our membership already qualify to use it for free through their Medicare plan/silver fit program, and the remaining members would have an option at least partially covered by the association to allow them a significantly reduced cost. We will have more information on this once the board makes their decision. I have confirmed that the Woodburn aquatic center participates in the standard silver fit program, which is included as part of Medicare plans.

Volunteer involvement

One of the ways that our HOA has been able to reduce its expenditures and stay competitive since its inception is through a high level of volunteer involvement. Our founders envisioned a community where everyone helped pitch in, in whatever capacity they were able, to make this place the best that it could be.

I am looking at organizing volunteer groups, designated to specific areas of expertise where anyone with a background in that area, or who feels they could do well, can volunteer. This could be anything from maintenance, to helping in the office, or the landscaping, and even with technology. We will be identifying specific areas of need over the coming month, and hopefully presenting specific opportunities in the February meeting.

If you are interested in volunteering, please reach out to me, and let me know what areas you would be able to help with. You might come up with something we hadn't even thought of yet.

In conclusion to that, I would like to read an adapted quote from a former president "ask not what your community can do for you, but what you can do for your community."

If we all work together, we can make this a place that we are all proud to call ours and keep operations costs and in turn assessments from rising drastically in the future.

OPGA SPOTLIGHT

CHIP SULLIVAN, PGA
WOODBURN ESTATES & GOLF - Woodburn, OR

HOW LONG HAVE YOU BEEN A PGA MEMBER?
I have been a PGA member for 28 years!

TELL US SOMETHING THAT MIGHT SURPRISE US ABOUT YOU?
Since I am new to Oregon via Virginia, many might not know that I played on the PGA Tour in 1997 and 10 years later won the PGA Professional National Championship at Sunriver Resort. Currently I am suffering with back issues and am unable to play golf.

WHAT LED YOU DOWN THE PATH OF BECOMING A PGA GOLF PROFESSIONAL?
Since the age of 10 I knew I was going to be a pro golfer. If not as a professional golfer then as a golf professional.

WHAT IS A LITTLE KNOWN FACT / FUN FACT ABOUT YOUR COURSE?
The toughest 5,400 yards in Oregon.

THREE INDIVIDUALS THAT WOULD MAKE UP YOUR DREAM FOURSOME?
My Father-in-Law Tom Hall and my Mom and Dad. They have all passed away. I would love to catch them up to speed with my family.

WHAT IS YOUR FAVORITE CLUB?
Always was my 1 iron in the day. Now I don't have a favorite.

BEAVERS, DUCKS OR OTHER?
Ducks! My son Colby has been a Ducks fan since he was a little boy all the way back in VA. He hopes to play golf for the Ducks in college. Then, a shout out to the VA Tech Hokies, where my oldest daughter is a senior broadcasting major. Also, my alma mater the Ole Miss Rebels, where I won the SEC Individual Championship over David Toms.

INSTAGRAM, TWITTER OR FACEBOOK?
I rarely go on Instagram or Twitter but am on Facebook quite a bit. Because of that my kids say I'm old!

WHAT'S YOUR BEST 18 HOLE SCORE?
I have shot a few 9 under 63s but my most memorable was breaking Arnold Palmer's course record at The Country Club in Cleveland, OH. The round included an eagle on a par 3, par 4 and a par 5.

WHAT IS YOUR BIGGEST FEAR?
A double cross!

CHIP SULLIVAN

The OPGA Golf Professional Spotlight is where we showcase and feature our many outstanding professionals across the Oregon Chapter of the PNWPGA. These golf professionals wear many hats at their facilities and are they are dedicated to making golf a better game for everyone.

WHERE IS THE BEST PLACE THAT YOU HAVE TRAVELED TO AND WHY?
I loved traveling to South Africa to play on the Sunshine Tour for 3 seasons. It taught me invaluable lessons which helped me reach my goals of playing on the PGA Tour.

IF YOU COULD GO ANYWHERE IN THE WORLD, WHERE WOULD IT BE AND WHY?
I would love to go the Maldives. Every time I see a picture of those awesome huts on the crystal clear water it looks like heaven.

WHAT WOULD YOU BE DOING (FOR A CAREER) IF YOU WERE NOT A GOLF PROFESSIONAL?
I have asked this question to myself many times, and honestly I do not have any idea.

WHO IS YOUR MENTOR IN THE GOLF WORLD?
I have 3 that stand out and all of them are PGA Pros. The first is James Leitz, PGA. I worked for him in the summer months in college. He is now the Pro at the club I grew up at, Tchefuncta CC. Next is Bobby McIver, PGA. I worked for Bobby right out of college at the CC of Jackson, MS and then again at Greenville CC (South Carolina). I round out the threesome with Ernest Ross, PGA - my coach at Ole Miss.

WHAT IS ONE PIECE OF ADVICE YOU WOULD GIVE TO SOMEONE WANTING TO BECOME A PGA PROFESSIONAL?
This is a relevant question to me because my 17 year old son, Colby, is striving to become a PGA Pro/Professional Player. Golf has always been his passion, but I urge him to approach this field carefully. A prospective pro, at any level has to have unwavering dedication as well as the determination to work tirelessly, 7 days a week some times. My career has always "clicked" for me because of my golf game. My son seems to be following suit. To all future pros, I would say to find your "niche"; what your good at and become the best at it. If you have a fantastic knack for teaching, club fitting, playing marketing, and/or great business sense, then this could be the career for you!

WHAT'S YOUR FAVORITE MAJOR?
The PGA Championship by far. I have been fortunate to have played in 6 PGA's with my best finish at tie for 31st in 2004 at Whistling Straits. To this day it's still the lowest finish by a club professional in the PGA Championship in over 50 years.

50/50 Raffle: winning ticket was Chuck Johnson.

ADJOURN:

President Westphal asked for a motion to adjourn, motion seconded and approved @10:45am.

Next Meeting will be Wednesday, February 2, 2022 @10 am in the dining hall. Minutes were approved by President Len Westphal.

60 Years of Women's Golf (1961–2021): Part Sixteen

by Diana Lindberg

1983

Jo Raven and Ed Schilling were the 1983 club presidents.

156 members attended the January business-luncheon meeting. Annual dues were \$6.00, the first increase since 1972. The kickoff for the playing season was in March with 136 players.

Both the 9-hole and the 18-hole teams played the Spring Handicap on May 12th. There were 141 net players. After play, they had a joint meeting of the men with the women in the auditorium with refreshments served. On June 8, the King City Ladies visited and played nine holes. The Woodburn Independent sponsored the May 30th Memorial Day Mixed Tournament, with both 9-hole and 18-hole flights and eighty teams.

The first women's horse race was on June 11, sponsored by the Bank of Oregon. Fern Lewis and partner bowed out at hole #3, Arlene Koessel and partner played to hole #4.

A picnic was at the gazebo after the 4th of July tournament.

Fern Lewis won the Club Championship for the 18-hole women and Alice Brauckmiller won the Club Championship for the 9-hole women. The Turkey Shoot was on October 12, based on net scores. *Fewest putts* broke the tie.

1984

Dola Mae Sami and Harold Bacon were honored at the December 1983 dinner as the incoming presidents for 1984.

Like previous years, January started cold, the kick-off was in March. McCully Realty once again sponsored the membership books for at least the third year.

About this time The Early Bird Golfers started playing. They were a group of 9-hole golfers who meet on the second Tuesday of the month for breakfast and a later social hour after play.

On May 10, Woodburn Landscaping and Hubbard Chevrolet sponsored the Spring Handicap, offering a new Chevrolet Celebrity car for the first hole in one for both Men and Women. No one collected the car in 1984. * After the mixed tournament, awards were presented at the Gazebo. A \$2.00 entry fee was set per person with 150 players participating.

*However, in 1985 during the 25th anniversary year of Senior Estates Sue DuPre aced hole one and won the 1985 Chevrolet car worth \$8,000.00 at the Women's Spring Handicap.

HOLE-IN-ONE and a new Car – 50th Spotlight

Jack Berkey - June 2012 - "At the time I was preparing for the hole-in-one I was trying to decide if I needed insurance for the women. I had a friend (Harry Samas) that played a lot of golf at Senior Estates and his advice was that it was not necessary to buy the insurance as there were only about three women that could reach the green on hole number one. The insurance was only about \$600.00 and at the last minute I decided to purchase the insurance. (Lucky me!) We had a salesman (J.C.) that was always full of it and was a jokester. I was at the dealership and received a call from J.C. saying that someone just made a hole in one. Of course, my first reaction was to tell him that he was full of it, however he said no I am serious. You could hear a lot of background noise and I begin to think he was right. Then, I think, Jim White got on the phone to confirm the hole-in-one.

I felt that the Man upstairs was looking out for our business. The value was \$8000.00, and it was lucky that I bought the insurance." (1)

Jim White - June 2012 - "I remember talking about not buying the insurance. It always seemed like we would pay the premium, but no one ever won a car. Sue DuPre rushed into the golf shop to sign the book. She rushed out to the tee and without even a practice swing she hit her shot and it went in. She hit a 4-wood. I remember helping to set the pin that day. Curt Smith, the greens superintendent wanted to put it in the middle of the green and I told him to put it on the right side of the green. We picked out the pin position. The rest is history. Her husband Bud DuPre currently lives in Wilsonville." (2)

HOLE-in-one nets local woman car Sue DuPre displays the four-wood and golf ball that she used to ace the first hole during the Woodburn Landscaping Spring Handicap tournament Wednesday. The hole-in-one won DuPre a new car.

Sue DuPre was happy simply to have reached the green on the first hole of the Woodburn Landscaping Spring Handicap tournament at Woodburn Senior Estates Golf Club last Wednesday.

When the ball dropped in the cup, it was, you might say, sauce for the goose. But DuPre picked up more than her first hole-in-one, in more than 20 years of golf. She also won a car for her effort.

Hubbard Chevrolet put up two Chevrolet Cavalier cars as prizes for the first man and woman to ace the hole during tournament play.

"When I got the call, I thought you were joking," Hubbard Chevrolet manager Jack Berkey told Senior Estates Pro, Jim White. "I thought the salespeople put you up to it."

DuPre was in one of the first group of golfers to tee-off in the tournament. Berkey said he could not believe anyone had aced a hole so quickly.

But there was bevy of witnesses watching as the ball bounced up on the green and plucked into the cup.

DuPre has had to alter her swing because of a foot injury. She has only played golf three times in 1985. But when she teed-off a well-worn Top-Flite 3 with her four wood everything went right.

"My first thought was 'Finally I've reached the green,' she said. "When it went in I just kind of felt shaky."

DuPre's biggest problem now might be explaining to her daughter that she was only joking in the letter saying that if she won the car, she would give it to her daughter. "I was just kidding", DuPre told friends. "I never thought I'd get a hole-in-one. I figured the odds were 100,000 to 1". (3)

Estates Quilters 2021 Annual Report

by Carolyn Waterman

With the Covid 19 threat and member/family sicknesses, we were only able to quilt nine months in the year 2021. We have sold quilts that were displayed in the Lounge display cases, and thus able to help different organizations.

Cash donations totaling \$2,400 were given to the following:

\$600.00 - Woodburn AWARE Food Bank

\$400.00 - Love Santa Inc.

\$600.00 - Liberty House/Salem

\$600.00 - Meals on Wheels

\$200.00 - Woodburn Estates for kitchen dishwasher

We donated 86 tied quilts to the following:

80 tied quilts to the Liberty House (Children's Advocacy Center/Salem)

6 tied quilts to Love Inc

We donated 7 crocheted afghans to the Liberty House/Salem (crocheted by Betty Stenger)

Thank you everyone for supporting the Estates Quilters.

She's back!!

She got all her teeth cleaned and realigned. All her threads untwisted and even got her joints oiled. She promised to be good and to make all the stitches perfect. So... she's back to work Monday thru Friday 10 a.m. to 4 p.m. For sewing, call Evangeline at 503-982-3657

Woodburn Fire District Promotion

Media Release

Woodburn Fire District's Mitchell Raines was promoted to lieutenant during a ceremony at the Board of Directors meeting earlier this month. Lieutenant Raines is leading the firefighters assigned to the district's new peak activity fire engine that was put into service on November 1st.

Raines is one of four career lieutenants that serve as the district's front-line supervisors responsible for maintaining 24-hour operational readiness for emergency response. WFD lieutenants supervise four-person crews, manage emergency scenes, train firefighters, and ensure that policies and procedures are upheld while keeping firefighters safe. The meet the district's mission is to protect the lives and property of those that live and work in Woodburn, Gervais, and surrounding areas.

"Throughout his tenure with the district, Mitch has shown exemplary leadership skills. He takes the initiative at every opportunity to teach, train new volunteers, and career members", commented Woodburn Fire Chief Joe Budge. "Recently, Mitch jumped at the opportunity to run a six-week training academy for four new career firefighters who joined the district in September." The curriculum for the academy, which was developed by Raines, included rigorous academic and physical fitness components along with extensive training in firefighting, and emergency medical procedures, and the operation of the district's fire engines and equipment.

Lieutenant Raines is an eight-year veteran of the Woodburn Fire District with an Associate's degree in fire protection technology. Throughout his years of service, Raines has been the recipient of many awards and commendations including recognition as Firefighter of the Year in 2016 and the Fire Chief's Award of Excellence in community service in 2019. Raines also received a Letter of Appreciation following the completion of an intensive 14-month, 1,208-hour training program to achieve certification as a paramedic. Raines will continue to serve as a paramedic when needed as part of the district's ongoing commitment to advanced life support service that was approved by voters as part of a local option levy in 2018.

Lieutenant Raines, his wife Amber, and their newborn son Trevor are residents of the Woodburn community.

by Karen Linton, Activities Committee

Unfortunately, 2021 did not see the end to Covid. However, thanks to the vaccine, we were able to do a few more activities than 2020. Following is a list, in no particular order, of the things the Activity Committee undertook in 2021:

1. Planned & volunteered at a Covid booster clinic in the auditorium.
2. Maintained an ongoing food drive with a barrel outside the office.
3. Held a Christmas food drive for the Aware Food Bank and a toy drive for Love, Santa.
4. Manned a cooling station in the extreme heat of the summer.
5. Thanks to our sponsor, Country Meadows, gave out almost 200 plants & plant starters.
6. Held an outside "library" during the time the clubhouse was closed so that members could have access to books and puzzles.
7. Held three summer concerts at the gazebo thanks to our sponsor, Cascade Park.
8. Planned and operated a Scavenger Hunt.
9. Planned and participated in a Christmas Golf Cart Parade.
10. Decorated the clubhouse for holidays.
11. Had meetings all year to plan activities we could have.
12. Researched, designed & wrote a New Members' Brochure and then delivered to all homeowners who bought a house in 2020 and 2021.
13. Made and sold coasters from the downed trees from the ice storm. This fundraiser was for a dishwasher for the kitchen

Winter Fire Prevention Advice

by Editor

Heating equipment is the second leading cause of home fires in North America. But during the winter, it jumps to the leading cause, according to the National Fire Protection Association.

To avoid home heating fires, remember these rules:

Portable heaters fueled by gas, kerosene, wood, or coal: All heaters must be at least 36 inches away from anything that can burn. Never leave them on when you are not in the room or when you go to sleep. Never dry clothing on a heater.

Kerosene heaters: Use only the fuel recommended by the manufacturer (never use gasoline!). When refueling, turn off the heater and let it cool before adding fuel. Wipe up spills promptly. Store kerosene away from heat or open flame in an approved container.

Fireplaces: Have the chimney inspected prior to the start of the heating season and cleaned if necessary. Creosote builds up in chimneys and causes chimney fires. Always use a sturdy screen when burning. Remember to burn only wood (never paper or pine boughs). And never use flammable liquids in a fireplace.

Wood stoves: Be sure the stove complies with local fire codes and is properly installed and maintained. Chimney connections should be inspected at the beginning of each heating season. Follow the same safety rules for wood stoves as for space heaters. Burn only wood and be sure the stove has approved stove boards below it and behind it to protect floors and walls.

Portable LP gas heaters with self-contained fuel supplies are prohibited for home use by fire safety standards.

Capture Those Fleeting Ideas

by Editor

People get new ideas in common settings. For some, the three B's are especially productive: bed, bath, and bus. Others have reported that the three S's produce creative ideas: swimming pool, sauna, and sleep.

Ideas are fleeting things. They streak across our minds, and if not captured, might be lost forever. The main thing that distinguishes "creative" people from others, say experts writing in Psychology Today, is that the creative ones have learned ways to pay attention to and preserve some of the innovative ideas that occur to them. They have "capturing" skills.

Scientist Otto Loewi struggled for years with a problem in cell biology. One night, a new approach occurred to him in his sleep. He grabbed a pen and wrote it down in the dark. But the next morning he couldn't read it. Fortunately, the great solution came to him again during sleep. Taking no chances, he went straight to his lab. He won a Nobel Prize for the work he began that night.

People who want to capture their ideas develop methods of doing it. Artists have sketchpads, writers carry notebooks, inventors make notes on napkins, and candy wrappers.

Salvador Dali got ideas for paintings from his early sleep state. For new inspiration, he would lie on a sofa with a spoon in one hand, balanced on the edge of a glass placed on the floor. When he drifted off to sleep, the spoon hitting the glass would waken him. He would then sketch the images he was seeing.

Anyone can learn to capture new ideas and nudge their creativity to new levels. So can you -- so develop your own techniques and you will soon discover that you are more creative than you think.

MAKING SENSE OF INVESTING

Goodnight 2021

by Editor

"Hast thou entered into the treasures of the snow?" Job 38:22 KJV

There is a poem that I memorized years ago. The last line says: "Soon fast asleep in their snug little beds, Snow laid a cover over their heads." The poem is talking about the fall leaves...but I thought of it applying to the Year 2021, with all of its challenges. It has come to an end, and it is being tucked away by a blanket of snow. It has been an interesting year, to say the least. I went back thru the *News & Views* and just glanced at the articles that were written. The 2nd year of Covid with its vaccinations, and boosters, and then the variants. There were lots of new faces around about – Board Members, General Manager, Pro Shop, Maintenance, N&V Editor to just name a few. Who could forget the ice storm with the power outage for days?

I often ponder what are the 'treasures of the snow'? To me, it is being quiet indoors and enjoying the quietness that the snow brings, and the beauty of the white draped landscape. I love to see the icicles around about and the crunch of the snow when you walk in it. So...goodbye, 2021. Welcome 2022!

Catastrophe to Rescue Mission Recipe

by Kim Farquharson

The old saying of "haste makes waste" is so true. It was one of those 'make-every-second-count' moments as I was trying to make pie crusts for dinner for company. My recipe is a good one and a large one. It starts with 3 cups of flour and 1 ½ cups of shortening. I had the brilliant idea that I could just quickly blend them in the food processor, therefore saving me a bit of time. Wrong! Instead of a cornmeal mixture, it creamed the flour and shortening together into a thick paste. Since this was a dinner for company, there was no solution but to start over. I quickly put the paste into the freezer to deal with later.

Today, I saw the frozen bag of thick paste in the freezer and decided that it was time to start the rescue mission. I browsed the internet for a recipe that would use shortening and flour. I found one that had "Ultimate Chocolate..." in the title and it used ¾ cup shortening. That was perfect! Anything with "ultimate" in the name had to be good...and I could double it, bringing me to the 1 ½ cups of shortening that was in the paste. Without further ado, I printed up the ingredients of the recipe and started adding and adjusting them into my mixture: 2- ½ cups brown sugar, 2 eggs, 1 tsp. vanilla. I saw that this recipe called for 'butter-flavored' shortening, which was not in the paste, so decided to put in a teaspoon of butter pecan flavoring to help a bit with the butter flavor. I added 1 more cup of flour and 2 teaspoons of soda. The thick paste already had salt, so I did not add any more. It looked like cookie dough.

On a side note, the night before, I was working with white and red chocolate. I melted the chocolate in a divided silicone bowl and put the bowl aside to let the chocolate harden before I cleaned it up. The silicone bowl can then be turned inside out, and all that chocolate just shatters into all these little shards which I usually just toss. So, I had this mound of white and red chocolate pieces and I looked at the cookie dough, and thought 'why not?' In they went. In the pantry, I found a package of mini chocolate chips with about 1/3 cup in it and another almost empty package of Heath butter brickle nips. They went in as well. I rolled them into 1-inch balls of dough and put them in the oven at 375 degrees.

It was at this point, that I decided to check out the recipe to see how long the cookies should be in the oven. That is when I truly looked at the picture and read the full title: This was a recipe for Bar Cookies! It said to press the dough into a 9x13 inch pan!

It was then and there that I named these cookies: Kim's Katastrophe They were soft and chewy and very much worth the time to make! I put the dough balls on a cookie sheet and froze them, then stored them in a zip locked bag. When visitors stopped in, I quickly pre-heated oven, pulled a few balls out of the freezer onto a cookie sheet and into the oven for 11 minutes. Fresh cookies in a flash! A successful rescue mission! Yield: 50 cookies

Focus on History

History of 1987

by Stan Hiller

Chapter 28 for 1987 starts with the following:

President.....	Margaret Keister
Vice President	N. S. Abrahamson, now Gilbert Flaughner Aug. 11, 1987
Secretary	Dola Mae Samis, and Public Relations
Treasurer	Charles Minor
Activities.....	Bob Sanders
Golf.....	Ralph DeBriac
House.....	Ray Larson, now Joe Galvin
Membership	Ernie Henkel
Rules & RV Lot.....	Myron Baumer, now Dale Fitzpatrick
Administrator is the President, and the meetings were held in the Craft Room.	
Golf Pro	Jim White started July 14, 1979
Golf Course Super	Jack Smith
N&V Editor	Susan Vetter Jan. 1, 1986
Travel Office	Jackie Opitz
Estates Restaurant	Dave & Lucy Almond started February 14, 1984

November 9, 1986 Board minutes reported change.

The Initiation fee is set at \$1,000 for new homeowners.

Type	Assessment	Golf	Total
Homeowner Membership (50+)	\$150		\$150
Homeowner & Golf single	\$150	\$170	\$320
Associate Membership (50+)	\$190		\$190
Associate Member Golf single	\$190	\$180	\$370
Green Fees – guest	\$5 for 9 holes; \$8 for 18 or all day.		
Green fee (17 years old or younger)	\$2 for 9 holes; \$3 for 18 holes		
House Guest Golf fee	\$50 per one month		
Club Storage \$12	Oversize club storage \$18		
Locker rental \$12	Pool cue reserved rack \$3		
Power golf car user fee \$25	Golf car storage electric \$120		
Power golf car storage electric \$120	Golf car storage gas \$90		
Trailer storage initiation fee \$15	Trailer assessment \$10		
Trailer less than 25 feet \$18	Trailer over 25 feet \$36		

January 13, 1987 Board minutes President Keister welcomed everyone to her first meeting.

House chairman, Ray Larsen said he was getting bids for the stainless-steel table and a worktable in the restaurant kitchen, to comply with state sanitation laws. The leaking auditorium roof hopefully has been repaired permanently and the stained ceiling tile will be replaced.

The secretary read Myron Baumer's report – with the help of Jack Smith's crew, the drainage pipe has been installed for the entire 750 feet of the property.

Mr. Ed Stack made several comments on the outstanding job that the Directory Committee members have done, and the delivery of the telephone directory books.

February 10, 1987 Board minutes President Keister announced that Ray Larsen, House chair, had submitted his resignation. The president appointed Joe Galvin to fill the unexpired term as House Chairman.

House Chairman, Joe Galvin reported a new ceiling was installed in the storeroom area of the swimming pool to prevent condensation of the outer walls rising to the attic. This ceiling also brings us up to the fire code. Hopefully, the moisture problem over the swimming pool and exercise area has been solved.

March 10, 1987 Board minutes President Keister reported that we had begun our spring house cleaning that included the cleaning of the Blue Room, painting and carpeting

of the Craft Room, and cleaning and placing of stainless-steel shelving in the Restaurant Kitchen to comply with the state regulations for restaurants.

The Woodburn High School Golf Team will use the course this year, as it has in the past, for its home base, and we wish them a very successful season.

March 14, 1987 N&V – The new refrigerated water fountain in the Health Center is a gift from McCully Realty. Your generosity and continued support are greatly appreciated.

April 14, 1987 Board minutes President Keister announced that the Board accepted the resignation of Myron Baumer due to personal business.

President Keister recommended that we all express our appreciation to Ernie Henkel for spearheading the development and production of our new Senior Estates Brochure, which was distributed with the *News & Views* last week. Thank you, Ernie!

May 12, 1987 Board minutes President Keister announced that the regular open meeting would meet in the auditorium regularly, due to the Art Guild classes being held here by Chemeketa Community College in the Dining Room. That Dale Fitzpatrick has been appointed to the Board as rules chair.

House chair, Joe Galvin said that the auditorium roof has not leaked for some time. We have had leaks in pipes, sinks, broken TV cable, and window shades, which have been repaired. A new carpet has been installed in the Pro Shop and remodeling in the Ladies Locker Room will soon be completed.

June 9, 1987 Board minutes House chair, Joe Galvin said our restaurant has just received the highest award for acceptable standards of sanitation that the OS Health division awards. Big thanks to Carl Miller for rebuilding a fence in front of the clubhouse. That Elton Shores will be our new maintenance man. He has been a custodian for several years at a Portland apartment complex and he and his wife, Betty, will move into the Senior Estates shortly.

RV chair, Dale Fitzpatrick, reported that the expansion of the RV lot had been completed to include 47 more spaces. This will help eliminate RV units parked at homes.

July 14, 1987 Board minutes President Keister announced the resignation of N.S. Abrahamson due to health issues. Golf Chair, Ralph DeBriac, I must bring up, which I find difficult to do, and that is carelessness on the golf course. One of our crew members was hit by a golf ball a week ago. Things like this should never happen. Remember, the person doing the hitting is liable.

July 25, 1987 N&V article Award Winners of 5th Chamber Annual Golf Car Parade. The Best Commercial entry: US Bank; Best Commercial Costume: Cascade Park; Best Non-Commercial entry: Golden Squares; Best Non-Commercial Costume entry: Chemeketa Community College; Judge's Choice: Cascade Park; Sponsor's Choice: Fairway Inn Motel; Mayor's Choice: French Prairie Care Center; and the Grand Marshall's Choice: Farmer's Food Market. Senior Estaters also had their golf cars decorated and must have been over 35 golf cars.

August 11, 1987 Board minutes President Keister announced that Gilbert Flaughner will replace N.S. Abrahamson. The Board had approved a recommendation from the Long-Range Planning Committee to make two efforts to improve visual arrangement of the Auditorium by relocating the screen and raising the stage about 16 to 18 inches before embarking on a major project.

August 22, 1987 N&V Neighborhood Watch – is the shrubbery around your home trimmed so that it doesn't make a good hiding place for intruders? Keep Alert! Notice activities in your neighborhood and report anything unusual to the police.

September 8, 1987 Board minutes Vice President Henkel expressed appreciation for a gift of an exercise bicycle that was donated by Beth Bigej. A question was asked as to how many associate memberships there are, and the answer was 176 associate members in the various categories. The grand total is 176 members for total of \$49,460. Broken down to \$33,440 in dues of which 91 are golfers for a total of \$16,020.

October 13, 1987 Board minutes President Keister reported that she was disturbed by the reports she had received in respect to certain members berating the Golf Maintenance Crews. She went on to ask the cooperation of all members in respecting the workers and other Board members voiced the same.

Comments: Doris Stacy recommended that the Board consider using Key Cards as a means of policing the use of the Health Center. After a short discussion which included comments about costs and the fact that it would not be a perfect system in that the Key Cards could be given by members to non-members for their use, it was decided that the Board would investigate this idea in greater depth.

November 10, 1987 Annual Board minutes President Keister said I want to thank my fellow Board members for a job well done, the ladies in the office, the Golf Course Superintendent, the Pro, the custodians, the delivery people for the N&V, the restaurant crew and all the many, many volunteers, who are the backbone of this Association.

The election results:

Bing Hiserote	313
Ed Schilling.....	244
Bob Adamson	235
Keith Stovall	194
Cliff Small	182

December 8, 1987 Board minutes President Keister announced that the Board had been trying to respond to complaints about the lack of consistency of the water temperature in the swimming pool at 85 degrees. Members in attendance assured her that is much better.

President Keister also announced that the Board, acting in response to a suggestion from a member that we should have an official logo, had selected the logo used on the Telephone Directory "Thank You" cards as the **official logo** of the Senior Estates Golf and Country Club.

Fake Survey Calls Want Your Money, Not Your Opinion

by Editor

The Federal Trade Commission is investigating automated calls that claim to want your opinion. What they want is your money.

You are likely to receive a call because phone surveys are exempt from rules that ban automated "robocalls" and calls to numbers on the National Do Not Call Registry.

Some companies think that beginning an automated sales call with a question makes it legal. It doesn't. One cruise line recently paid a \$500,000 fine to settle claims that it robocalled millions of phone numbers with what seemed to be a political survey.

Those who answered were told they could receive a free two-day Bahamas cruise for their trouble. But they were connected to a salesperson who tried to talk them into paying for parts of the "free" cruise.

This fake survey has been shut down, but other unscrupulous companies use similar tactics.

Quoted in Bottom Line Personal, Bikram Brandy of the FTC says if someone tries to sell you something during a phone survey, hang up immediately.

If a robocall asks you to press a button on your keypad to be removed from the call list, don't do it. Pressing is likely to increase the number of robocalls you receive.

Instead, visit DoNotCall.gov to confirm that your phone number is on the Do Not Call Registry. This will reduce sales calls.

Also, visit Nomorobo.com to find out if its free robocall-blocking service is available for your landline and/or your mobile phone carrier.

Staying Well

by Editor

Moderate activity is better than intense exercise.

Researchers at the University of Copenhagen looked for new ways to battle the obesity epidemic. They found that moderate exercising is more motivating than hard training. The study was reported in the Scandinavian Journal of Public Health in September 2013.

During a 13-week period, they discovered that 30 minutes of daily exercise was just as beneficial as a full hour of hard fitness training. The shorter period delivered more energy and more motivation to pursue a healthy lifestyle.

The subjects who exercised 30 minutes a day lost an average of eight pounds, while those who exercised for 60 minutes lost only six pounds.

The study authors concluded that the energy produced by a moderate amount of exercise can significantly impact the subject's daily activities.

Hammer Time

by Editor

1. "Hammerin' Hank" Aaron started and ended his Major League Baseball career playing for teams in which city? a-Boston, b-Milwaukee, c-Atlanta, d-San Francisco.

2. Which actor appeared in Hammer Film productions playing both Frankenstein's monster and Count Dracula? a-Bela Lugosi, b-Vincent Price, c-Christopher Lee, d-Boris Karloff.

3. What classical composer's Piano Sonata No. 29 is known as the "Hammerklavier"? a-Franz Liszt, b-Antonin Vivaldi, c-Wolfgang Amadeus Mozart, d-Ludwig von Beethoven.

4. In folklore, what "steel drivin' man" won a race against a steam-powered drilling machine, but died with his hammer in hand when his heart gave out? a-Alvin Strong, b-Alfred Stormalongo, c-John Henry, d-Paul Bunyan.

5. Who co-wrote the folk songs "Where Have All the Flowers Gone?" and "If I Had a Hammer"? a-Pete Seeger, b-Bob Dylan, c-Joan Baez, d-Leonard Cohen.

6. Who is the creator of the Codex Hammer, purchased by Bill Gates for \$30 million in a 1994 auction? a-Leonardo da Vinci, b-Baruch Spinoza, c-Galileo Galilei, d-Alexander the Great.

7. Which of these musicals was NOT written by Rodgers and Hammerstein?

a-"South Pacific," b-"Oklahoma," c-"Kismet," d-"The King and I."

8. In which Marx Brothers movie did Groucho play a hotel manager named Mr. Hammer? a-"Room Service," b-"Monkey Business," c-"The Cocoanuts," d-"A Night in Casablanca."

9. The Hammer Bro is a recurring enemy in what video game series? a-Sonic the Hedgehog, b-The Legend of Zelda, c-Super Smash Brothers, d-Super Mario.

10. Which King of England, who ruled from 1272 to 1307, was nicknamed the "Hammer of the Scots"? a-Henry V, b-Edward I, c-Henry VIII, d-Edward III.

The Joys of Following Local Sports

by Editor

He looks so young. He has a baby face, but he doesn't know it. His hair done all in braids. Wiry and strong. His team is down three points. Send him in, Coach! With 3 seconds left ... he beats the buzzer! The hometown wins! The cheerleaders cheer. The fans go wild. His mom (you know her mother) and dad hug him proudly.

Now you must get a t-shirt.

Such are the joys of watching hometown sports, something people tend to abandon after they leave high school. But why? For drama, excitement, and enthusiasm, nothing beats high school sports.

The funny thing is that it is good for you, too. A 2019 study of 584 older adults found that just watching sports was a mood booster that encourages a sense of well-being and belonging, according to the Journal of Aging and Health.

The good news is that high school sports can be very inexpensive to attend.

The venues are usually close and while there could be some traffic around game time, it's not like a massive pro sports crowd.

High school sports season tickets usually run about \$100 a year, while college sports can run more than \$400. Pro sports can cost up to \$1,000 or more.

High school basketball, for example, can include 25 to 35 games, not all of them home games. Most weeks during the fall and winter, fans can watch the team play at least once.

High school baseball during the spring and summer (March to June, depending on the region), can mean an enjoyable afternoon. Take a lawn chair!

In some parts of the country, high school football is as big (or bigger) than college football and the games are full of color and energy. The season depends on the region, but generally runs from August to November.

Choose the Perfect Area Rug

by Editor

If your living room or bedroom is looking a little tired these days, don't start planning to redecorate just yet – an area rug might be a quick and cheaper way to refresh a room.

First, think about how big you want the rug to be. In the living room, all the furniture should sit on top of the rug comfortably or all the front legs should be on the rug. In a dining room, the rug should be large enough that the chairs remain on it even when pulled out. In a bedroom, an area rug should frame the bed and be big enough that the front feet of bedside tables can sit on the edge.

Next, consider the needs of the space. A high-traffic room like the living room requires a more durable low-pile rug that can be easily cleaned, while a more intimate space like a bedroom can manage something a little more delicate.

Think about how the rug will fit into the space. A rug should work with the furniture above it – a round rug with a round table, for example. If you fall in love with a rug that's too small, you can layer it with a less-expensive plain rug underneath that covers more area, like a jute or sisal mat.

Once you have a rug picked out that suits the space, and brings your room back to life, make sure to get a rug pad to maximize your rug's lifespan. Look for one that's about two inches smaller than your rug on each side so it won't show through.

As for color and design, a good rule of thumb: Your rug can either stand out or blend in, but it should not fight the existing colors and decorations in your room.

A light gray room could carry off a dark rug with some colors reflecting the room's art. For a more subtle effect, choose a gray with a simple pattern.

Rooms with browns and leathers could look nice with a lightly patterned brown, maroon, beige, or gold rug.

The more traditional a room, the more traditional the pattern should be.

Chili Cook-Off Returns

by Steve Kufeldt

Come out and taste some of the best chili in the local community as the Woodburn Chili Cook-Off returns after a one-year absence on Saturday, January 22, 2022, from 12:00 p.m. to 1:30 p.m. Sponsored by the French Prairie Kiwanis Club and hosted by Hoodview Church of God, this all-you-can-eat chili event features friendly competition between community groups and individuals using original chili recipes, highlighted by the annual "fire vs. police" First Responders' battle.

Admission is \$5 per person (\$25 maximum for a family) and includes an all-you-can-eat chili meal (chili, toppings, cornbread, beverage, and dessert) in addition to sampling the chili entries.

Attendees help select the winners by voting with money for their favorites with proceeds benefiting the AWARE Food Bank and Ray of Hope. Through the generous support from Xfinity, Legacy Financial, Brown Insurance, Hallmark Properties, and Yes Graphics, over \$1,500 has already been raised for this year's event. Since its inception six years ago, this event has raised over \$7,000 for community organizations.

Cook-off teams and individuals are invited to participate. Entry forms are available at www.hoodview.church or call Steve Kufeldt at 503-951-9452 for more information. Hoodview Church of God is located at 1530 Mount Hood Avenue in Woodburn.

Donate Trees

by Sherry Stoneback

Arbor Day foundation has a great deal for us. Many of us lost trees in the ice storm. Our air and noise pollution have increased because of these losses in our community. Trees absorb the pollutants out of the air, and provide a noise barrier and shade! ARBORDAY FOUNDATION will, for a small donation, provide 10 trees to anyone who joins. There are several choices for you to choose from.

What will we do with all those trees?

If only 10% of WEG households did this, we'd have 1500 trees to plant or give to our neighbors to improve everyone's health and well-being! What we couldn't use could be donated for planting on city, county, or state park property. A tree planted anywhere benefits us all. The trees would arrive in March for planting then.

What about the cost to plant all those trees?

For that many trees, we could hire companies to assist in moving and planting the trees at a discount. Think of the jobs that could be provided—maybe an encouragement to get our high school kids involved. We will have established a charitable fund to benefit members of WEG, and we could ask for assistance with a grant to assist those who can't afford to pay for planting themselves.

What better way to improve everyone's lives than to donate money to buy loads of trees to benefit us all, and perhaps a few bucks extra to help our neighbors participate?

Let's revitalize our community and develop relationships that will benefit all of us for decades!

Go to arbordayfoundation.org, make a small (\$20) donation and pick your trees. They assist with finding trees that are native and appropriate for the northwest. Then consider another small donation to help plant them to help your neighbors out, or choose to donate to just one.

Morning Shock

by Editor

Morning came and our neighbors on Umpqua and Country Club were in for a shock. It all seemed like a normal day. They rose up as usual, but then were puzzled to see their kitchen cupboards open. Looking around, they noticed other abnormalities like the light on in the utility room and the shop door open and a purse gone from its normal place. Then, the horrible discovery that their car was missing from the garage. While they were peacefully sleeping, someone had come into their house and looked around and then helped themselves to what they wanted. It appeared that they accessed the house by opening the garage door and just came on in. Fortunately, the police were able to track the car to Portland and it was recovered. Other than the horrible smell of cigarettes, the car was in good shape. All her documents, credit cards, money from her purse were gone as well as an item from the car.

This serves as a good reminder to us all: To protect the rest of your home in the event that someone does access your garage, treat the door from the garage to the house like any other exterior door. Lock it behind you, and make sure it's connected to your home alarm system. Install a secure keyless deadbolt and don't make a habit of leaving this door open or unlocked.

If you park in your driveway, don't forget to lock your car, and take personal items in your home with you including the registration and garage door opener.

The Lion's Roar and Other Cat Facts

by Editor

House cats cannot roar. They can be plenty loud when they feel like it, but they cannot roar. On the other hand, their cousin the lion cannot purr.

All cats either purr or roar, but according to Live Science, they cannot do both. Lots of cat species can purr, including the bobcat, ocelot, lynx, cougar, and cheetah.

A cat's lovely purr of contentment is created in the larynx as the cat breathes in and out. It is a quick twitching of the vocal folds inside the voice box. Both the purr and roar are created with the hyoid system at the base of the skull. In purring cats, there is a bone in the hyoid, while roaring cats have a long, elastic ligament.

Roaring cats have long, heavy, fatty layers of tissue that make up their vocal cords. So big cats create low, loud rumbles – loud enough to reach a human's pain threshold.

Music Jammers

by Dena Hollod

Music Jammers will meet on January 23, 2022 in the auditorium from 1-4 p.m. We need helpers in the kitchen. Dena is retiring, Linda is unable to work in 2022 so that leaves Char by herself. Unless we can get some help, we may have to cancel our coffee and snack breaks during the jam sessions. Call Dena at 503-989-9187 or Char at 503-260-7917 if you can help us.

Woodburn Estates Bible Class

by Jared Jenkins

The Estates Bible Class, formerly taught by Darla Clark, will be meeting in the craft room on Friday mornings at 10:30 a.m. Please note that this is a change of time from what was previously reported by the N&V.

Rev. Jared Jenkins, ThB, will lead the class as Darla is now a resident in The Towers, Mount Angel, OR. Jared is a retired pastor and has taught at Big Sky Bible College and was Adjunct Faculty for Lewis & Clark State College. He is musical (vocal & guitar), and the bible class will have music, bible study, and fellowship.

Jared and his wife, Betty, recently returned to Woodburn Estates and live on Rainier Road. Their phone number is 541-673-2023.
