4.5.1-A Scope of Project. Each project will include a detailed scope of the project including product specifications (dimensions, weight, etc.), special requirements, statement of intended use, and compliance requirements to be provided to bidders.

4.5.1-B Project Schematics and Drawings. Each new building, remodel, or renovation project must include a schematic, drawing, or design to be used in the estimating process. Where necessary, engineers or designers will be employed to ensure the required information is available and has received approval. Selection of the engineer/designer will follow the bid process.

4.5.1-C Project Contingencies. The age of the existing buildings requires that we plan for contingencies which may not be immediately noticeable from the outside. All projects must include an estimate for contingencies which meets the prudent-person test.

4.5.1-D Number of Bids. All projects require a minimum of three (3) bids solicited from area businesses subject to the availability of qualified bidders and the uniqueness of the service except in extraordinary or emergency situations. When situations occur where continued use of an existing business associate of the Association is advantageous to the Association, three (3) bids may not be required depending on the relationship and board approval.

4.5.1-E Project Budgets. All projects will have an initial budget estimate to determine if the project is feasible during the current fiscal year. The initial budget will be used as a guideline in evaluating submitted bids.

- 4.5.1-G1** Timeliness.

Prepared by the Manager, the contract will include but not be limited to: a reasonably detailed description of the product or service being procured, a restatement of the specifications, a schedule for production of the product or service, a method of determining that contracted services are completed, and the method and timing of payment to the contractor or vendor. An officer of the corporation will sign the contract.

4.5.5 Project Accountability and Responsibility. The corporation spends large sums of money each year to maintain and enhance the common property. The Board of Directors is responsible to the corporate members for the money spent and is obligated to be kept informed of each project at every step, from its proposal through its funding approval, through the design phase, through the course of the project (including any cost changes), to its end when all costs are totaled. Each project will have a budget, and the Board should expect the budgeted figure to be met unless a justified change alters the expected cost. It is the responsibility of the project coordinator to keep the Board informed. Because projects will vary in length and complexity, there are no standard forms to be used in project management. It is reasonable for the Board to expect written reports and oral presentations.

4.6 Collections. Not all members pay their assessments, dues, and fees promptly; nor do all advertisers in our publications pay their bills promptly. The Manager and Bookkeeper are responsible to the Board for collections from delinquent accounts

SOP – Standard Operating Procedures for Board & Members

and will provide the Treasurer of the Board a report of delinquent accounts monthly.

The member will also be informed that the costs involved in recording the lien will be charged to the member's account. If the member is a golfer, his or her name will be provided to the Golf Professional, and he or she will be prohibited from golfing until the account is brought current. Properties that are for sale are not exempted.

4.6.2 Associates. Associates are delinquent if they have not paid their dues and fees by January 31 and July 31 each year. If the Associate is a golfer, his or her name will be provided to the Golf Professional, and he or she will be prohibited from golfing until the account is brought current. If the delinquent account is not brought current within thirty (30) days, the Associate will be suspended from membership. Reinstatement of associate membership is contingent on payment of the delinquent dues paid in full.

4.6.3 Publications Advertisers

4.6.3-A News & Views: Advertisements can be placed in *News & Views* twice monthly. Advertisers provide the ads and decide how often they will appear. The terms for payment are due upon receipt, with late fees accruing at 1.5% per month (simple). Statements are sent out on the last day of the month for the ads that were published.

4.6.3-B Phone Directory: The phone directory is an annual publication following the bid process as specified in the SOP.
