Important Enhanced Security

There has been a recent increase in vandalism, including tunnel tagging, which has highlighted the need for better security measures in our tunnel. When the Woodburn Police Department responds to these incidents, they ask for any security footage to help identify the culprits, but unfortunately, we do not currently have any. This is a concerning issue, especially considering that the tunnel is a frequently used spot by walkers and golf carts alike and is quite isolated. Fortunately, there is already a security system in place at the Green's building provided by Integrated Solutions, which could be used as a base to install a new camera system. While there is a concern that vandals could simply paint over the cameras, the footage they capture can still help with deterrence and identifying those responsible for any damage.

Our Gazebo

Well Loved but Showing Its Age

The Gazebo has been a cherished gathering spot for our community since it was built in 1981. Over the years, it has braved numerous weather conditions and has provided countless happy memories for our members. However, it's now time to plan for its replacement to ensure the safety of our members.

Looking back ten years to 2014, the Gazebo was a hub of activity. It was the location of the weekly golf events such as the Sundowners and Friday Funnies, as well as concerts, barbecues, private birthday parties, and ice cream socials.

Unfortunately, dry rot was discovered on the railings and posts of the Gazebo in 2014, and despite efforts to find a solution, it has become unsafe and must be torn down. The wet ground currently cannot support the equipment needed for construction, but work should begin soon. In the meantime, temporary awnings will be used for events in the area.

The House Committee envisions the new Gazebo to be similar to the Senior Estates Park Gazebo. Go take a look, it is very nice. It will take some time, but the wheels are in motion for this project.

We will miss our old friend, the Gazebo, but we look forward to creating new memories in a safer and more modern structure.

2024 Activities Committee Debut

SOP 2.2 "The principal responsibility of the Activities Chairperson is the promotion of the Association as a good place for members to live and enjoy themselves through participation in activities..".

The responsibility of the Activities Committee has now been passed on to our new Board Director, Dorothy Monnier. Considering the instructions of the SOPs, the task at hand is quite daunting. The past Activities Committee was very successful in organizing events while earning money to fulfill their obligations. The new committee, comprising of both new and old members, has been brainstorming ideas to generate new enthusiasm. Fundraiser events are vital to the success of the committee as they provide funds to help address the different needs in the community.

With that in mind, the committee has chosen to plan a taco event, complete with great food, music, and drinks.

As you all know, when the Foodies Club has an event, all donations are saved "for the next event". However, the club has made the decision to donate these funds to Activities and join in with them on this event instead of having one of their own. So, save the date and come and participate in this fun event. Let's show our support for the new Activities Committee and help them off to a great start!

How St. Patrick's Day Became Global

The story of how St. Patrick's Day became a global celebration is as curious as how Patrick himself became Ireland's foremost saint.

The man who would become St. Patrick was a 5th century Roman-British Christian missionary. What we know about him comes from a single literary source called the Declaration, written by Patrick himself. In it, Patrick talks about being kidnapped by Irish raiders who enslaved him on Gaelic Ireland. He explains that he found God during his 6 years as a slave. According to Patrick, God guided him to the coast where a ship was waiting to take him home.

Once home, he studied to become a priest and returned to Ireland where he converted thousands of pagans to Christianity. Patrick died on the 17th March 461 AD and this date became an official Christian feast day called St. Patrick's Day in the early 1600s.

Today, St. Patrick's Day is now commemorated globally. There are celebrations as far as New Zealand, Argentina, and Tokyo as well as closer to home in places like New Orleans and Louisiana. Experts say that while this has been partly influenced by the migration of the Irish around the world, the festival also exists in places where there aren't many ethnic Irish people and is celebrated in more countries than any other national festival.

There is nothing really Irish about the celebrations worldwide. In Tokyo festivities focus on cultural exchange. In Montreal, where St. Patrick Day parades began when Irish soldiers in the British army observed the day.

March "Who's on Third?" Community Concert
by Trudy Fowlks, Concert Coordinator

The March "Who's on Third?" concert will be held on Saturday March 16, and will feature the return of our favorite dance band group "Grand Jazz (Swing) Band." This band has become one of our favorite performing groups. This small ensemble group still puts out the Big Band sound that we all remember from the 30's and 40's. Their performances feature familiar swing music of Glenn Miller, Tommy and Jimmy Dorsey, Duke Ellington, Gene Krupa, and many others. The members come from all around the mid-valley area & consist of Teachers, Engineers, Salespeople, a Police Officer, and Retired Folks.

The concert will be held at Woodburn United Methodist Church, located at 700 N. Cascade Dr. (just south of the Cascade Park Retirement complex) here in Woodburn. The concert performance time will run approximately 3:00 to 4:00 PM All the "Who's on Third?" concerts are open to the public.

A free-will offering will be taken at the door to support the future of this community concert series. Come and enjoy this fun group & invite someone to join you as we take a "trip back in time", (musically). Shake off the "Winter Blues" by enjoying another extremely entertaining concert. We look forward to seeing you there.

Suggestion for a New Club???

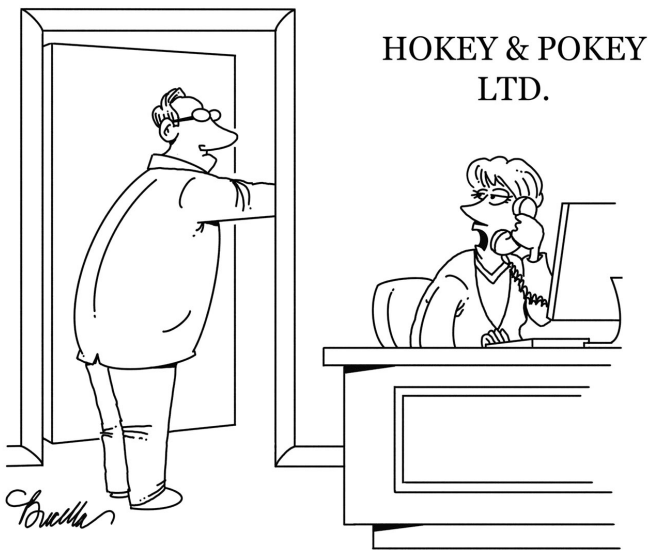

Fishing Hole # 9

Karen Sorenson generated alot of surprised looks and then laughter when she appears to pull a catch from the puddle on the Golf Course. This is actually a cat toy that she has but it certainly looks real and makes for a great 'fish story'. She said she is wondering if we need to start a Fishing Club? Thanks for sharing this with us, Karen.

Art Show Draws Large Crowd

The "Meet the Artist" Art Show was a great success on Sunday afternoon. A large crowd of approximately 36 people came in to see the art show, meet the artist, Steve Veltman, and enjoy the refreshments provided. The art display changes on the first of every month, and it is always exciting to see the different styles of the local artists. This display is managed by the Woodburn Art Center - Glatt Gallery.

LOVE BOAT CRUISE

- Adventures of Lorrie Cox, Kathy Tatro and Alice Tvetan

Back in the late 70's and 80's watching the Love Boat series on TV, it never entered my mind that someday I'd take a cruise on the Love Boat. Of course it's not the same smaller ship used in filming the original series. It's now one of the larger ships built by Princess and was used to film the reunion show in the late 90's, thus the name. When the original series aired, only about 500,000 people per year cruised. The show literally transformed the cruise industry and now millions of people take cruises every year.

On the 4th of February, six friends set sail from Galveston Texas, on the Regal Princess Love Boat. Three from SEGCC (Lorrie Cox, Kathy Tatro and Alice Tvetan), plus Alice's daughter and two other friends. As we departed the port, we heard the ship's horns play the first several notes from the Love Boat theme song. It turned out this theme sounded each time we departed a port, and also at noon each day. And we started to listen for this whimsical feature of our cruise.

Our first port, Cozumel, Mexico, had to be aborted due to rough seas. Our captain tried to dock, but after about 20 minutes decided it wasn't a safe maneuver. A Carnival ship ahead of us also gave up. Prior to this, waves were hitting the windows on deck 5. Thankfully our ship had state of the art stabilizers so we only felt some gentle rocking and none in our group got seasick. This gave us an extra sea day in which to enjoy the many activities and entertainment on board, plus soaking up the sun. Our Oregon bodies craved this dose of Vitamin D.

Our next stop was Belize. However we had some excitement a few hours prior. We were awakened at about 4:00am to the Captain announcing Man Overboard several times. What a shock!! Could someone have possibly fallen off our ship?? We rushed to our adjoining balconies and watched the rescue unfold. We watched a searchlight scan the seas and then lock on what appeared to be a very small boat. A rescue boat fast approached, stayed in place for quite a time, then sped off. The Captain then announced two people were rescued and were now safe. Whew, what a relief!! That evening we learned two young men were sleeping in their small boat and got caught in the ship's wake. This tossed them out of their boat and into the water. This was observed from the Bridge and our Captain immediately initiated international protocol for the closest ship to respond to man overboard incidents. You can watch this whole event on YouTube by searching Man Overboard on Regal Princess.

The water around Belize is very shallow so we had to board tender

boats for the 20 minute ride into Belize City. We scheduled an excursion for a river cruise to see various wildlife including manatees, crocodiles, iguanas, storks and monkeys. Then we boarded a bus to spend some time at the Mayan ruins.

Our next stop was Roatan, Honduras, a lush and beautiful tropical island off the mainland. We scheduled a tour that included a stop at an iguana sanctuary, where hundreds of these reptiles skittered around our feet, and not my favorite stop. But it was part of our main tour to a sloth and monkey sanctuary where each of us got to hold a baby sloth.....oh, the joy!! Sloths are much smaller than I had imagined and the baby was very light weight. Their fur is soft, as opposed to how course it looks. We also had a colorful macaw placed on our shoulder or head, and he was a thief!! He pulled the button off a man's ball cap and tried to steal my daughter's glasses off her face. A

visit inside a large enclosed monkey cage gave us many laughs as they stopped on some shoulders or used shoulders as highways to travel upon. It's amazing to watch their quick antics. Sadly we had to say goodbye to the sloths and head back to our ship.

When we docked back in Galveston, we were surprised to see Mardi Gras festivities taking place. We watched a lively parade and had beads tossed to us....no frontal flashing required. An ice cream treat at a famous vintage store was our send-off to head to the airport for our flight back to Portland. This was a fun week in the sun and it's likely to become an annual retreat.
